Hotelstuff and Greenstuff Newsletter: Issue #63

February 2019

Hello from Lorraine and the Hotelstuff Team

Climate change is here. We understand what causes it. We understand the impacts. We are not anywhere near prepared enough.

ADAPT NOW BEFORE IT'S TOO LATE

Lorraine will be running a series of workshops on "Climate Change 101 - The Impact on Africa - How to Future Proof your Family and Your Business".

Focus will be on tourism challenges and survival tips, transport disruption, property modifications, changing seasons, responsible manufacturing, green procurement, waste management and the future of food. Tourism, especially in Southern Africa, is in for a rough ride. We need to feel in control of our uncertain future.

Email info@greenstuff.co.za for more details.

Don't forget to fight against single-use plastics, every opportunity you get. We can never give up the fight!

Please remember to 'LIKE' both our Facebook pages:

OUR 15th AWARD!

We are still totally amazed. Never, ever, did we dream our work would be so appreciated and honoured. Nearly 19 years of consistent, committed work by our intrepid little team to grow our websites and our continued reach into business and the private sector to share our passion for kindness and to encourage all to make responsible choices.

Thank you to Cape Town Experiences for nominating us and thank you to everyone in our network who voted for us!

CAPE TOWN EXPERIENCES AWARDS 2019 - "Never has our beloved city seen six industry sectors brought together for six individual awards ceremonies in one event such as now.

The aim of our Awards event 2019 is to seek out and highlight the incredible achievements of individuals, groups and businesses that encourage and embody city pride and unity, acting as role models in and ambassadors for the Mother City.

To acknowledge and reward excellence in (almost) every field, we have 600 nominees and 120 award winners across various industry sectors."

"Stop Smacking the Snooze Button" at Professional Speakers Association

I gave a really hard-hitting talk to fellow professional speakers at a chapter meeting.

Speakers meet decision-makers everywhere they work: conference and event organisers, hotel and restaurant managers, caterers, transport providers and, of course, the clients who book them to speak - huge corporations and manufacturers and sometimes the biggest greenhouse gas emitters and abusers of natural resources.

Speakers have a perfect opportunity to influence, encourage or simply plant little seeds on how to make better choices for all these sectors. Or, invite one of us to train or run workshops to show how simple it can actually be.

My talk was not fun; not my usual light-hearted style. It was to the point, tough and motivational.

Pecha Kucha Nights - 20 slides, 20 seconds each

An internationally popular Japanese concept to get presenters to cover a 60 minute talk into 6 minutes and 7 seconds! A discipline everyone should try to do just once. Imagine what a joy committee meetings would be.

I addressed the science (briefly), the impacts (with emphasis on certain industries), the critical need to plan, prepare, modify and adapt all areas of our lives to future proof ourselves and our careers against an uncertain future.

Who are we?

Hotelstuff: Conceptualised as a platform for trade introductions and online directory of suppliers, Hotelstuff has since evolved into a sophisticated business tool and much more than just an online directory. Today, many procurement departments from every industry and also homeowners use our two directories as their primary supplier list. Better still, it costs nothing for buyers to contact those listed in our directory. Suppliers simply pay an annual registration fee for their directory listing. Please note **WE ONLY MANAGE THE WEBSITES** and do not get involved in sales or quotes.

Greenstuff: Sister website to Hotelstuff, Greenstuff is a separate online directory of the green or eco-friendly products of suppliers listed on Hotelstuff.

Quick & Simple: No middle man. Interaction between the third parties is direct and enquiries are channelled to the supplier at no cost. The conclusion of the sale or interaction is not influenced by Hotelstuff in any way and we don't receive commissions or referral awards.

Virtual Helpdesk: As a value-add, we offer a free virtual Helpdesk for buyers who can't find what they need on our sizeable directory or are looking for unusual products or services. Given Lorraine's insight and 15-year tenure in Africa's largest hotel chain as Contracts and Purchasing Manager, she is more than qualified to refer and advise.

Conference & Event Stuff (Eco) Directory: We have created a new directory which provides anyone, wanting to host a green event, with easy-access tools to source venues, organisers and product suppliers that are offering 'eco' options.

Green Hospitality Consulting: If you sell accommodation or manage a restaurant, call us about a consultation or to run a simple workshop to help you and your staff understand what 'going green' entails and why it needs to be taken seriously - in short, we'll get everyone's buy in, including yours! And if you are a supplier, let us assist with greening your manufacturing process and the lifecycle of your product and packaging.

Speaking & Workshops: Ask Lorraine to come and address you, your team or your community. Lorraine is a member of PSASA and has become a popular motivational speaker on sustainable and responsible tourism, hospitality and family lifestyle. All aspects of sustainable, eco and green issues are addressed, debunking the myths and demystifying the jargon and leaving the audience positive, motivated and with easy solutions. She has been invited to speak at international conferences, seminars and exhibitions, right through to small local functions.

Awards: Lorraine has received numerous awards and commendations for her commitment to responsible tourism and hospitality in South Africa. [Read more about the awards here.](#)
