WHO ARE WE

- About Us

Hello from Hotelstuff

What we don't do for you! Four shows back-to-back gives new meaning to the phrase going the extra mile for you, our network!

1. Our Greenstuff Eco Hotel at **Hostex** in Sandton Convention Centre (covered in a previous newsletter), then ...
2. **Tourism Indaba** at ICC Durban (Greenstuff workshop), then ...
3. **Decorex** at CTICC and last month ...
4. **Grand Designs** at the Coca Cola Dome (highlights in a newsletter to follow).

All this so that we can (a) promote our subscribers to the public and hospitality industry, and (b) to encourage homeowners, hoteliers and manufacturers to think 'greener'.

TOURISM INDABA at the Durban ICC

Indaba was a bit disappointing for the hospitality sector, for a whole bunch of reasons - World Cup anti-climax, the economy, SA no longer being the 'flavour of the month', SA becoming too expensive and more. Approximately 2000 exhibitors (our target on our subscribers' behalf), including SADC countries, provinces and municipalities, and accommodation, hospitality and marketing organisations, as well as 13 000 delegates from all over the world were there.

However, for **Hotelstuff** and **Greenstuff** it was a bonanza. Three years ago (when we launched our **Greenstuff** directory at Indaba) we were horrified at how few people knew what we were talking about. But now, our stand is inundated with curious and well-informed hospitality people and our inimitable Dorothy ends up losing her voice. Lest laryngitis lay our lady low, we decided to gather our Green Groupies together, in one place at the same time, so...

... we booked a breakaway workshop on **How to Go Green** and invited Tourism Indaba exhibitors and delegates, accommodation owners and managers to attend. From our network of industry gurus, we hand-picked four highly respected experts and academics to join me in addressing the major areas of **Climate Change and Challenges**. What followed was a series of highly insightful and thought provoking presentations on global warming, energy solutions, water conservation, waste management, safe chemicals, green procurement and advice on eco friendly management and operation of properties.

The response was excellent and our audience comprised luxury lodge owners, hotel group representatives, hospitality managers, government tourism and municipal officials and, judging by the questions, the delegates were knowledgeable and sincerely eager to embrace going green.

DECOREX - Cape Town

After winning top accolade for our **Living Greenstuff Home** at **Decorex Jo'burg** last August and then months of preparation for our **Greenstuff Eco Hotel** at **Hostex** in February, we found ourselves somewhat 'showed out' and a little short on time - and 48-hour days! Hence we merely had a presence at Decorex Cape Town and didn't produce another all-out show stopper that we have become so famous for!

Some pictures of both events are below.

Who'd have dreamt we could achieve all this and collect so many T-shirts (hemp, of course) in just a year? That said, we couldn't have done it without the incredible, stoic support of our network, subscribers and extended green family who all continue to have such faith in our mission. My heartfelt thanks to you all. Here's to the next leg of our fabulous green journey.

Your Green Queen,
Lorraine Jenks

WHO ARE WE?

Hotelstuff - what we do

For those new to our network and for those who need a gentle reminder, here's a brief look at our business, and how we do it!

This year, Hotelstuff.co.za turns 10 and what a decade it has been! Since the introduction of Hotelstuff's sister, Greenstuff, three years ago, website hits have grown in leaps and bounds - 5000% to be precise. The explosion in awareness has been phenomenal.

The business model:

Hotelstuff: conceptualised as a platform for trade introductions and online directory of suppliers, Hotelstuff has since evolved into a sophisticated business tool and much more than just an online directory. Today, many procurement departments use our two directories as their primary supplier list. Better still, it costs nothing for buyers to contact those listed in our directory. Suppliers simply pay an annual registration fee for their directory listing.

Greenstuff: sister website to Hotelstuff and using the same model, Greenstuff is a separate online directory of the green or eco-friendly products of suppliers listed on Hotelstuff.

Green Hospitality Consulting: if you sell accommodation or manage a restaurant, call us about a consultation or to run a simple workshop to help you and your staff understand what 'going green' entails and why it needs to be taken seriously - in short, we'll get everyone's buy in, including yours! We'll also guide you through the often daunting process of obtaining international green tourism ratings - it is much easier and more cost effective than you'd think. And if you are a supplier, let us assist with greening your manufacturing process and the lifecycle of your product.

Quick & simple - no middle man: Interaction between the third parties is direct and enquiries are channelled to the supplier at no cost. The conclusion of the sale or interaction is not influenced by Hotelstuff in any way and we don't receive commissions or referral awards.

Virtual Helpdesk: as a value-add, Lorraine mans a free virtual Helpdesk for buyers who can't find what they need on our sizeable directory or are looking for unusual products or services. Given Lorraine's insight and 15-year tenure in Africa's largest hotel chain as Contracts and Purchasing Manager, she is more than qualified to refer and advise.

Tender Services: we offer a tendering service for new hospitality projects and refurbishments. Send us your specifications and let us forward them to appropriate suppliers on our database, free (takes us just a few minutes!) From there, buyer and supplier interact directly - no middle man nor commissions here either.
